#### **DETAILED ACTION**

1. This is a second action on the merits on Amendment A received in paper number 12, on April 20, 2002. Amended claims 8-14 and newly added claims 19 and 20 are pending and are being examined.

### Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 8-14, 19, and 20 are rejected under 35 U.S.C. 102(b) as being U.S. Patent Number 5,610,433 by Merrill, et al.

Merrill, et al, discloses an inductive device formed on a substrate; the device comprising:

- (1) a first conductive coil and a second conductive coil formed on a first insulating surface, said first conductive coil being substantially formed within the boundaries of said second conductive coil, [claim 1, figures 1 and 3];
- (2) a third conductive coil and a forth conductive coil formed on a second insulating surface, said third conductive coil being substantially formed within the boundaries of said fourth conductive coil, [claim 1, figures 1 and 3];
- (3) a fifth conductive coil and a sixth conductive coil formed on a third insulating surface, said fifth conductive coil being substantially formed within the boundaries of said sixth conductive coil, [claim 1, figures 1 and 3].

Application/Control Number: 10/012,209 Page 3

Art Unit: 2832

It can be seen from figures 1 and 3 that the coils are in spiral form, are above and below one another, all of which are above the substrate, and are all connected forming a conductive path.

### Response to Arguments

4. Applicant's arguments with respect to claims 8-14 have been considered but are moot in view of the new ground(s) of rejection.

Further arguments are discussed below:

- (a) Objections to the drawing are withdrawn;
- (b) Objection to the specification (abstract) is withdrawn.

#### Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

## Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer A. Poker whose telephone number is 703-305-4037. The examiner can normally be reached on 6:00-3:30, Mon.-Fri. (alternating Fridays off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin G. Enad can be reached on 703-308-7619. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-7722 for regular communications and 703-308-7724 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1782.
